

## AP SPANISH Syllabus

### Course Description:

AP Spanish Language students practice perfecting their Spanish speaking, listening, reading, and writing skills. They study vocabulary, grammar, and cultural aspects of the language, and then apply what they've learned in extensive written and spoken exercises. By the end of the course, students will have an expansive vocabulary and a solid, working knowledge of all verb forms and tenses. The equivalent of a college-level language course, AP Spanish Language prepares students for the AP Exam and for further study of Spanish language, culture, or literature.

### Recommended Preparation:

In general, students should be self-motivated and good independent learners. Students should have basic keyboarding skills and be comfortable with getting online, using email, and using a word processor.
